

baby-powder

Date made: 15/10/2018

Date cured: 19/10/2018

Effect on trace: Slows down

Batter consistency: Runny

Gel phase: No

Obstacles:

Prone to soda ash.

Takes long to set and remove from soap mould.

Due to the thin consistency of the batter, the fragrance oil floats to the top when added at thin trace.

Recommended usage rate: 31 g / 500g oils

Blends with other fragrance oils: Yes

Notes:

Can be blended in with immersion blender.

Spray with rubbing alcohol after pouring to prevent soda ash

Add salt to the lye water solution before blending with the oils to speed up the hardening process (1 tsp per 1kg of soap)

Only add fragrance oil at medium trace to prevent fragrance oil from floating on top of the batter.

Post cure notes:

Discolouration: Light beige

Scent staying power: 5/5

Quality of soap: 5/5

Recommendation / Rating:

5/5
